

RAP scoops top industry accolade

Designers and manufacturers of sustainable food-to-go packaging, RAP, has won the much-coveted Manufacturer of the Year Award at this year's FPA Awards ceremony.

Held at the Grand Hotel Brighton (March 9), some 450 FPA members were present to witness RAP pick up the award, as voted for by customers.

Graham Williams, CEO for RAP, said: "We're absolutely thrilled with this win. To be recognised by the customers that we serve on a daily basis is a huge compliment and confirms what excellent products and service we provide.

"This has been a successful and exciting 12 months for us having recently gained 'AA' Global Standards Status from BRC, two further UK Packaging Awards and the Unique Packaging Solution Award at the Café Quality Awards. This latest recognition has been achieved as part of a great team effort."

In addition, RAP was highly commended last night in the Product Innovation Award for its Open Sandwich Box and Strip Laminated HandRap.
